Rheovis® HS 1303 is an acrylic HASE thickener specially designed for providing high shear viscosity (ICI) that also contributes significantly to KU build, in a single addition.

**Performance Highlights**
- High shear rheology modifier with significant KU contribution
- Improved film build and hiding properties with roller and brush applications
- Excellent spatter and sag resistance
- Highly compatible with different emulsion and colorants

**Sustainable Highlights**
- APEO free
- Low VOC
- High efficient at low dosage

Rheovis® HS 1303 allows formulator to have good rheology control for paints with various formulation requirements.

**Rheovis® HS 1303 Characteristic Values**
