Hydropalat® WE 3225
Silicone based wetting agent with pronounced defoaming action

**Performance Highlights**
- Excellent substrate wetting
- Elimination of surface defects caused by craters or air bubbles
- Best in class defoaming action
- Excellent wood grain accentuation
- Improved flow and leveling
- Increased gloss

**Sustainability Highlights**
- Low VOC
- Low odor
Hydropalat® WE 3225
From now on, substrate wetting and defoaming is state-of-the-art

Wetting & anti-cratering effects in formulation based on Joncryl® 1552, dry film

Craters are generated by adding a strong silicone

Hydropalat® WE 3225 shows the following performance highlights compared to benchmarks:

- Excellent substrate wetting
- Improved anti-cratering
- Improved leveling
- Higher gloss
